

POSTMAN TESTING OF API

URL=Method: GET. URL: <http://127.0.0.1:8000>

URL= Method: GET. URL: <http://127.0.0.1:8000/health>

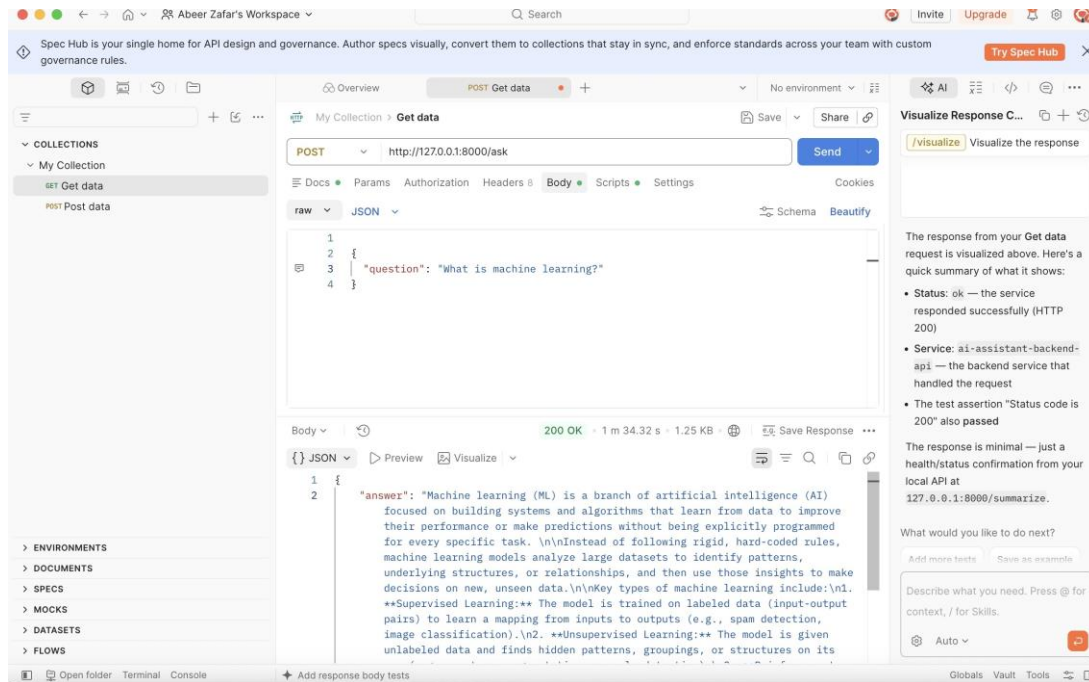

To check whether our fast api app is working or not

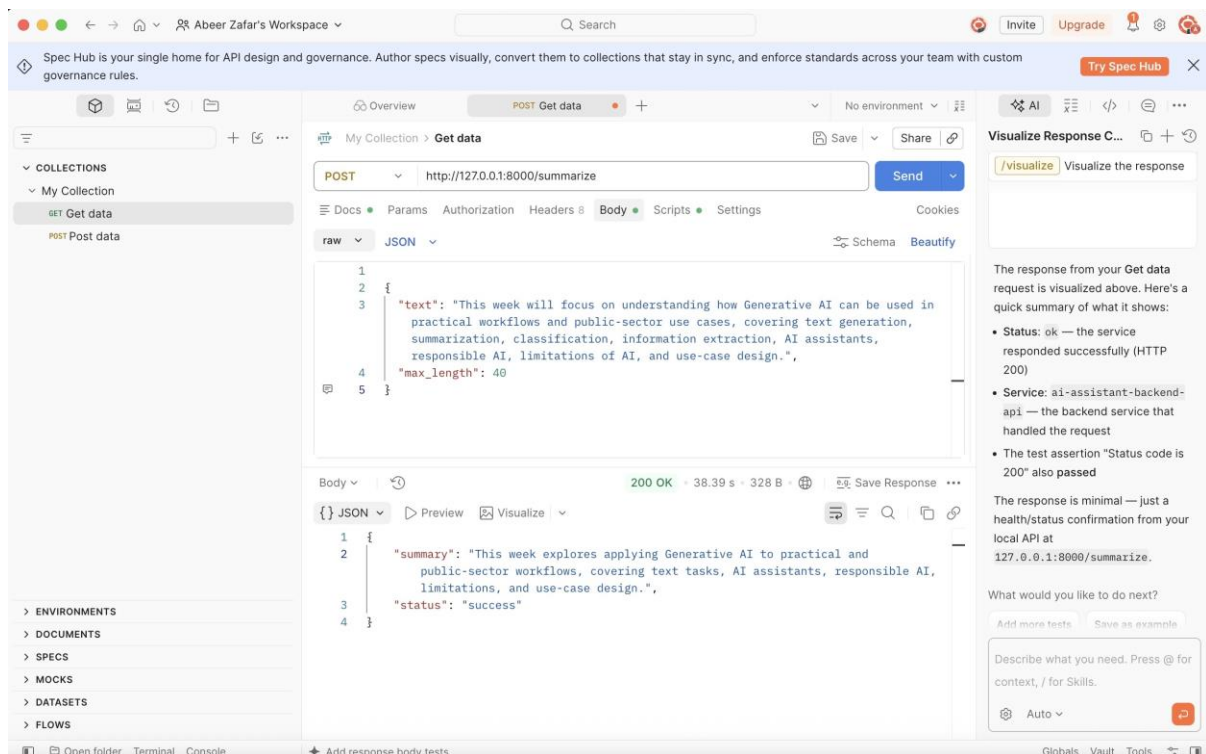

URL= Method: POST. URL: <http://127.0.0.1:8000/ask>

QUESTION= What is machine learning?

I asked this question before uploading any pdf.

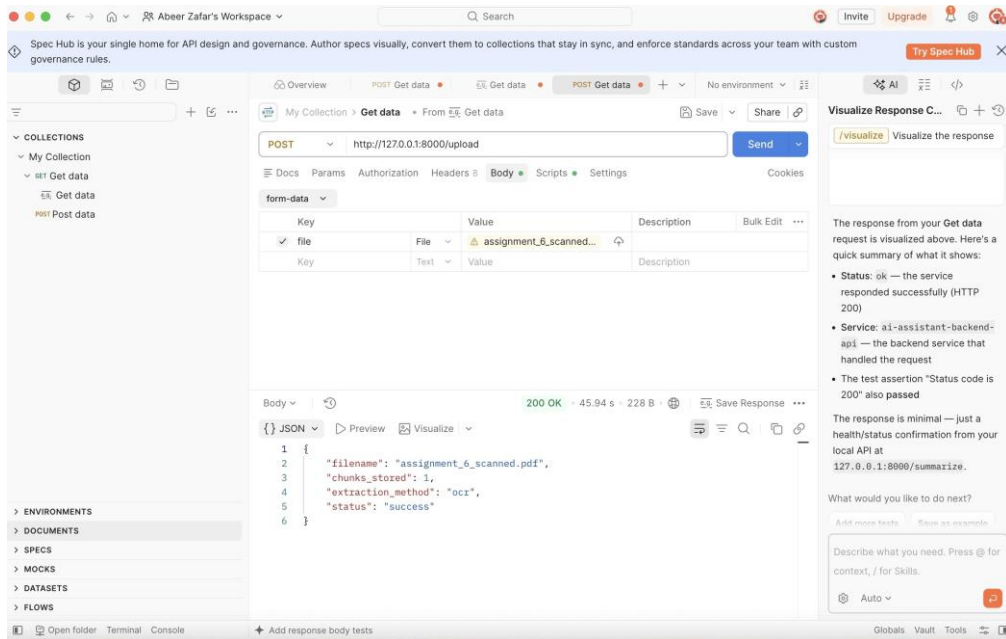

URL= Method: POST. URL: <http://127.0.0.1:8000/summarize>

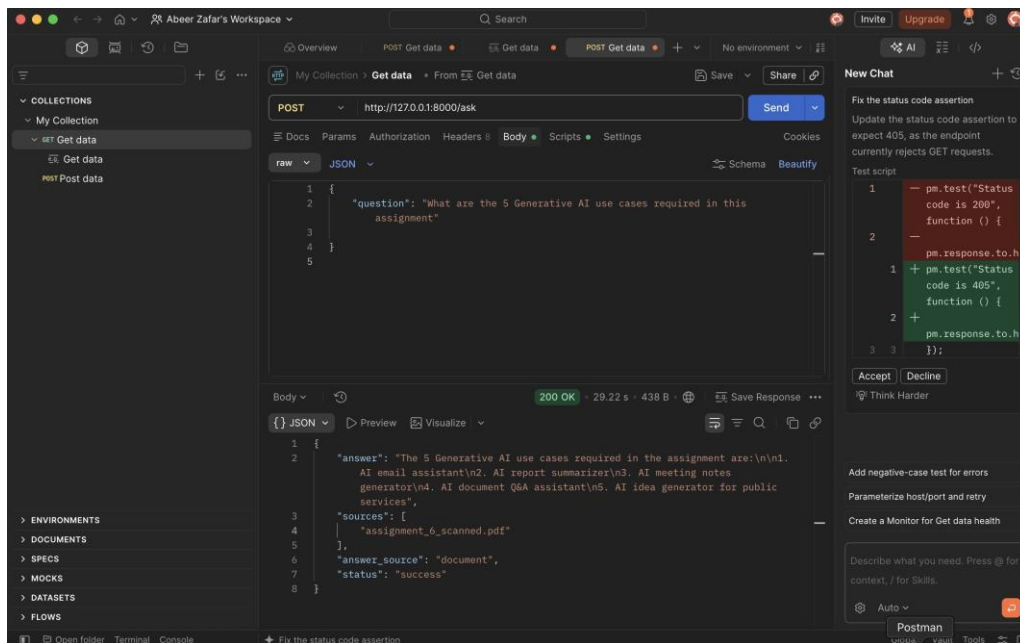

URL= Method: POST. URL: <http://127.0.0.1:8000/upload>

SCANNED PDF

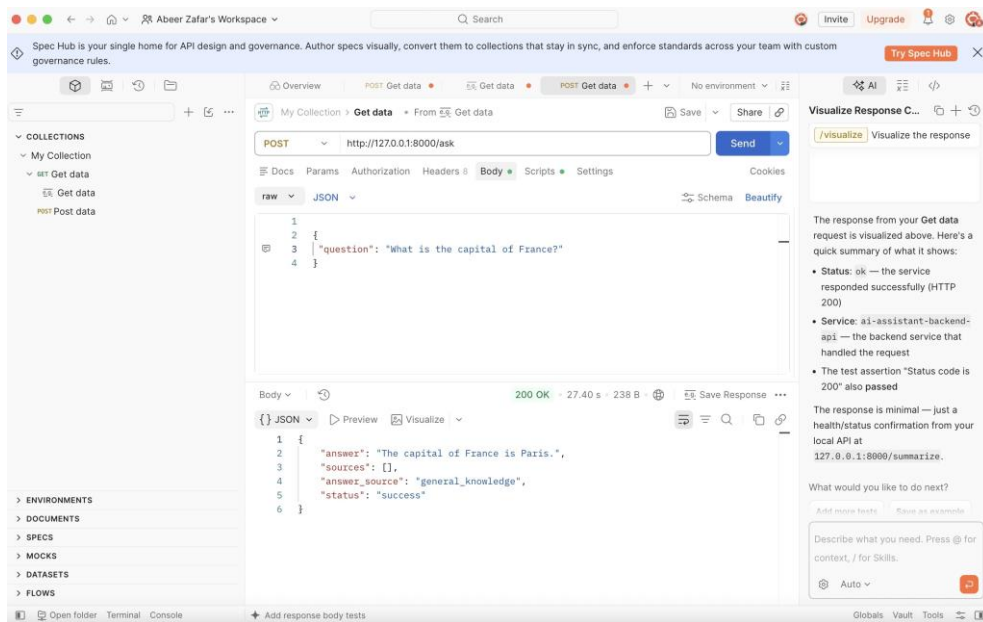

I asked the question from this scanned pdf and here is the output

NORMAL PDF

URL= <http://127.0.0.1:8000/upload>

FALLBACK/ERROR HANDLING
